Weekend Motocross Event May Cause Excessive Traffic on both SR99 and US50

Rancho Cordova – The California Department of Transportation (Caltrans) is alerting motorists that starting on Thursday, May 28 and continuing through Sunday, May 31, both State Route 99 and U.S. Highway 50 may experience some short traffic delays east of downtown Sacramento due to a motocross event being held at the Prairie City Park on White Rock Road in Rancho Cordova. The delays will likely peak between 6:00 a.m. and 12:00 p.m. (noon) on Saturday, May 30.

As always, Caltrans urges motorists to allow for plenty of travel time, especially on U.S. Highway 50 east of Sacramento because of the on-going construction projects. With those projects in mind, Caltrans urges motorists to use caution in these areas and to "Slow for the Cone Zone".
